# Amy's story

## In their own words.....

“I would never have gone for this job, because I would not have known what it was about”.

Alan is still on the road to recovery from depression but says getting this job has made a major positive impact on his health and well being.

“Things are getting better – I will be going on holiday soon and I am thinking of getting a car”.

“I feel more happy and confident than I ever have.

All the courses have helped me so so much and all the support I have had. I’m excited about starting my new job.” Kelly.

# How can we help you?

- Can we help those you care for?
- Can we support you?
- Would you like to volunteer / work for us?
