

Carers' Information Session - Creating a Co-operative for Care

Do you provide unpaid care to an adult with a learning or physical disability?

Do you struggle with managing or organising their care via Direct Payments?

If you do, you may be interested in joining our online information event with speaker, carer Christine Fincham.

On Tuesday 29th September 2020, 10.30am - 12pm noon.

Please note that although the session is being delivered via Zoom we are able to support you in joining by phone. We can also help you to connect via tablet or computer.

If you need help please contact Karen Malone, Carers Involvement and Development Worker, on 07725 215490 or email at karen.malone@carersinherts.org.uk

You could also call the office on 01992 58 69 69 ahead of the meeting.

At this special information session family carer Chris Fincham will share her vision to form a Carers' Co-operative.

The Co-operative would help family carers, who use Direct Payments, to recruit and share a pool of paid carers and assist with management functions like payroll and the co-ordination of rotas and holidays.

The idea is to pool resources to allow carers to have more control and freedom in how paid care is organised.

If you would like to join in this event please book a place by:

Phone: 01992 58 69 69
