

Healthwatch Hertfordshire is working with Hertfordshire University Partnership NHS Foundation Trust (HPFT) to investigate carers' needs and involvement when their loved one has been discharged from inpatient mental health services.

We are looking for carers and service users who have used HPFT mental health inpatient services to share their experiences by participating in a reference group on 11th July 2019 in Welwyn Garden City.

The feedback from this group will help us design a research project aimed at ensuring that the support carers get is the support they want, delivered in a way they want it.

If you would like to participate or to find out more, please call **01707 275 978** or email info@healthwatchhertfordshire.co.uk by the **5th July**.
